SelocOnLine

Seloc Publishing has been an innovator in helping boaters maintain and repair their outboard and inboard engines for over 30 years. From performing actual teardown procedures to digital photography, Seloc has been there all the way.

Now Seloc has taken repair into the 21st century by allowing subscribers to access our electronic database via the internet for up-to-the-minute information on their engine. Never before has repair information been so easily accessible.

Our unit repair sections contain detailed step-by-step instructions and thousands of photos and illustrations (color in newer models) that leave no system uncovered. What more could you ask for -all of the quality and content you've come to expect from our print manuals is there, plus quick access buttons for Repair, Specifications, Maintenance Intervals and Wiring Diagrams. Information retrieval is easy - Quick Access tabs, Explorer-style Table of Contents or a hyper-linked Search Index; we make it easy to find the information you need, when you need it. We're also creating a growing parts database with thousands of parts offered by Mallory Marine. And finally, newly expanded this year is our dealer/retailer database which allows you to search for parts and service providers by zip code.

Subscribing to SelocOnLine allows the user unlimited access to a single make/model/year engine/drive system for three years. Check with us for updates, but our growing coverage includes all models covered in the accompanying books when so noted. Simply look for the **SelocOnLine** icon underneath the books and know that all models covered in that manual are also available on line!

3 IN 1 FUEL TREATMENT

Mallory Marine 3 in 1 Fuel Treatment is formulated to work with Ethanol blended fuels and is an advanced formulation of our popular fuel stabilizer. This product is formulated to prevent many of the common problems related to ethanol in gasoline.

- **Prevents Fuel System Deposits** – Ethanol in gasoline can loosen accumulated deposits in marine fuel tanks, fuel lines, carburetors, injectors causing poor engine performance, hard starting, rough idle and stalling. Mallory Marine 3 in 1 Fuel Treatment removes power-robbing deposits from the fuel system to improve engine performance and contains more than FOUR TIMES the fuel system cleaning power of other leading brands.
- **Prevents Fuel System Corrosion** – Ethanol blended gasoline attracts water from the humid air and this water accumulation can cause corrosion damage to fuel tanks, fuel lines, carburetors and injectors. Mallory Marine 3 in 1 Fuel Treatment contains DOUBLE the corrosion protection of the other leading brands.
- **Prevents Fuel Degradation** – Today's gasoline begins to degrade immediately. Adding Mallory Marine 3 in 1 Fuel Treatment keeps fuel fresh for **12 months or more**. Like our regular fuel stabilizer adding Mallory Marine 3 in 1 Fuel Treatment keeps fuel fresh and eliminates the need to drain fuel prior to storage.

COMBUSTION CLEANER

Mallory Marine's Combustion Cleaner will help prevent power robbing carbon deposits on pistons, piston rings, spark plugs, combustion chambers and valves. Keeping the inside of your engines combustion chamber free from carbon deposits helps prevent hot spots which may lead to premature engine failure.

- **Helps Clean and Free Sticky Rings** – When used at regular maintenance intervals Mallory's Combustion Cleaner will help maintain your engines compression.
- **Prevents Corrosion** – By actively displacing water Mallory's Combustion Cleaner will help stop pitting on valve seats, cylinder walls, rings and pistons due to residual water that may have been trapped in the cylinders during shut down.
- **Safe for 4-Stroke & 2-Stroke Marine Engines.**

MALLORY MARINE OIL SEALS

Mallory Marine Oil Seals are specially designed and engineered from the highest quality materials for the marine environment. All oil seals are not the same, ours are constructed from special rubber compounds such as viton, buna, and other rubber materials designed for a specific applications. The outer cases are constructed from carbon steel or a marine grade stainless steel for applications exposed to the environment.

The dimensional chart below is intended for reference only and not to determine if a seal is suitable for a particular application.

TECH TIP:

Using a heavy duty porcelain resistor and threaded terminal connectors, this resistor is rated at 200 watts and 0.75 (cold) – 1.5 (hot) ohms. NOTE: The purpose of an ignition ballast resistor between the ignition switch (12V) and the ignition coil positive terminal is to restrict current flow through the ignition coil. Failure to use an ignition ballast resistor will eventually destroy the Ignition Module. Installing an ignition ballast resistor has no effect on the performance of the ignition system.

INBOARD & STERNDRIVE IGNITION PARTS

YLE SERIES BILLET DISTRIBUTOR

All-billet, 2-piece housing construction replaces weak, crimped together factory-cast housing and stamped plate. Designed as a direct plug-in replacement for late model GM fuel injection distributor, Mallory's new YLE distributor easily stands up to marine use. Mallory's electronic trigger system ensures a strong signal throughout the entire operating RPM range. This eliminates high RPM timing variation found in OEM ignition systems. Two versions are available, one for standard rotation engines and one for reverse rotation engines.

Performance Features:

- Designed as a plug-in replacement for GM-style fuel injection system distributors
- Includes steel gear, which is compatible with flat tappet or hydraulic roller cams
- Utilizes GM 8-pin module
- Reliable high signal strength trigger system
- Ball bearing and bushing combination provide maximum timing stability and long life
- Accepts standard and reverse thrust loads

CAUTION: When determining engine rotation, always view engines from the transmission end.

REMANUFACTURED CARBURETORS

The Marine environment is brutal on carburetors, new fuel formulations take their toll on gasket materials and floats. Extended “out of use periods or winter storage” cause formation of gum and varnish, and water or even small amounts of moisture in the fuel can cause severe internal corrosion. Some time this all amounts to damage that just can’t be cured by a traditional carburetor repair kit. Mallory Marine remanufactured carburetors are the answer. Remanufactured not “rebuilt” to the original OEM specifications to assure proper performance.

FEATURES:

- 100% flow tested on the production line throughout the entire operating range to assure proper fuel flow
- All “New” gaskets and “soft” components
- Body and bases are pressed and vacuum checked to assure proper gasket sealing surfaces
- New throttle shaft bushings are installed in every base
- High quality paint used on carburetor body for “new” appearance
- Anodized linkages for corrosion resistance

4-BARREL TBI SPARK FUEL MANAGEMENT SYSTEM

With the implementation of electronic fuel injectors in the automotive industry, many vehicles with carburetors or inadequate TBI systems lack the power, fuel economy or drivability to provide dependable service and performance. To improve on these inadequacies, ACCEL/DFI now has a Throttle Body Injection (TBI) Spark Fuel Management System for systems that operate in closed loop for optimum mileage, while reaping the benefits of this impressive 4 Bbl, 750 CFM throttle body. Precalibrated for a 350 cid engine, up to 300 hp, it can be calibrated for other applications with the CalMap calibration software. For ignition control, in addition to fuel control, an HEI Computer controlled distributor is recommended (non-computer controlled HEI distributor can also be used for fuel only applications). For convenience, this aluminum throttle body will bolt to a standard 4-bolt standard 4150 series carburetor flange manifold. System includes: ECM, Harness, Throttle body assembly, Air Cleaner, Fuel Pump, Fuel Filter, Sensors, Linkage Hardware.

MECHANICAL FUEL PUMPS

These mechanical fuel pumps meet OEM & U.S.C.G. specifications. Manufactured by the Leading OEM manufacturers these fuel pumps are designed specifically for marine use. We give you two easy ways to insure proper identification, through our detailed application chart when you know the specific application or the clock position identification chart when you have limited application information.

MARINE FUEL PUMP IDENTIFICATION

Many fuel pumps are often used for multiple applications. Sometimes the model or engine displacement of an engine can be difficult to determine. If the pump original pump is available, it can be identified by checking the clock positions of the inlet, outlet and separator (if applicable). To properly identify these positions hold the pump with the lever facing away from you at the 12 o'clock position. Then looking at the bottom of the pump, note the clock position of the inlet and outlet (see diagram below). If you find a match you must also check the pump lever to make sure it is correct. You may also check the cross reference chart if the pump has an identifiable number stamped on the pump flange. Always review the application data for each pump to confirm proper application.

ENGINE CLEANING BRUSH KIT

Made from stiff bristle nylon, will not melt or soften when used with most engine cleaning solvents. Brushes are made with heavy gauge twisted steel handles and come in a variety of diameters and lengths. Kit contains nine (9) assorted brushes ranging from 1/4" to 5" diameter.

Mallory #	Application
9-56006	Engine Cleaning Brush Kit

ENGINE OIL PRIMER

Priming the engine is an important precautionary measure that should be taken before you start the engine for the first time. Engineered to fit into the distributor aperture and operate with an electric hand drill, the engine oil primer pressurizes the oil system, assuring the lubrication of vital bearing surfaces.

ENGINE PORT POLISHING TOOL KIT

The Port Polishing Kit is designed for use on cast iron and aluminum components. This kit allows you to do your own detailed porting, polishing, and removal of flashing on all engine parts with the use of an electric drill. The kit contains (1) tapered cutting stone, (1) 1" diameter mini grind-flex flat wheel, (31) grind-polishing rolls (assorted sizes), and (3) various length mandrels.

ENGINE & CYLINDER HEAD HEAT TABS

Protect your work against unjust warranty claims. If the temperature of the engine reaches the predetermined temperature of 255 degrees Fahrenheit, the center of the heat tab melts, showing visual evidence of overheating. Use a premium grade heavy duty 2 part epoxy based adhesive (such as Devcon® Adhesive) to adhere to the engine cylinder heads and block.

9-59050	Heat Tab Sensors, 255 Degree, 10 heat tabs per pack

MALLORY MARINE OIL SEALS

Mallory Marine Oil Seals are specially designed and engineered from the highest quality materials for the marine environment. All oil seals are not the same, ours are constructed from special rubber compounds such as viton, buna, and other rubber materials designed for a specific applications. The outer cases are constructed from carbon steel or a marine grade stainless steel for applications exposed to the environment.

The dimensional chart below is intended for reference only and not to determine if a seal is suitable for a particular application.

LIMITED WARRANTY POLICY

Mallory Marine is a trademark of Prestolite Performance

Mallory Marine hereby warrants to the original retail purchaser, subject to the limitations and conditions incorporated herein, that Mallory Marine Products are free from defects in material and workmanship for a period of two (2) years from the original retail purchase.

To obtain warranty service for a claim without labor, return the Mallory Marine product along with proof of the date of the original retail purchase, freight prepaid to the distributor from whom the product was purchased, the distributor will then forward the product to Mallory Marine for evaluation. If the product is determined by Mallory Marine to be eligible for warranty, Mallory Marine will credit the distributor and the Distributor will credit the selling dealer.

To obtain warranty service for a claim with labor, return the allegedly defective Mallory Marine product and any other related damaged parts, along with proof of the date of the original retail purchase, freight prepaid to: Mallory Marine, 10601 Memphis Ave. #12, Cleveland, OH 44144.

Product purchased and properly installed by a Qualified Dealer and determined by Mallory Marine to be defective, may be eligible for labor reimbursement. If the claim for warranty is determined by Mallory Marine to be valid Mallory Marine will advise the dealer of the extent of Mallory Marine's responsibility. Mallory Marine will settle all labor claims directly with the dealer. Credit for the defective parts and parts related to the warranty repair only, will be issued to the distributor. The distributor will then issue credit to the dealer.

The duties and obligations of Mallory Marine under this Limited Warranty are expressly limited to the repair or replacement (at the sole discretion of Mallory Marine) of Mallory Marine products, which, in the sole opinion of Mallory Marine, have been found to be covered under the terms and conditions of this Limited Warranty. Mallory Marine expressly disclaims any duty or obligation to repair or replace any product other than a Mallory Marine product.

This Limited Warranty shall become void if it is determined by Mallory Marine, in its sole discretion, that products submitted for warranty consideration failed due to normal wear, or show evidence of abuse, lack of proper maintenance, improper installation, misapplication, alteration in any way whatsoever from their original design or negligence in use. Mallory Marine reserves the right to extend only the fair market value on claims that cannot be rectified due to unavailability of replacements parts.

Mallory Marine expressly retains the right to make changes and improvements in any product that it manufactures and sells at any time, without notice and without any obligation to change the catalogs or printed matter. Mallory Marine retains the right to determine, in its sole discretion, whether or not any Mallory Marine product is covered by this Limited Warranty.

This Warranty is limited and expressly limits any implied warranty to two (2) years from the date of the original retail purchase on all Mallory Marine products and is nontransferable. Some states or countries do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you.

No person, party or corporate entity other than Mallory Marine shall have the right to determine whether or not this Limited Warranty is applicable to any Mallory Marine product or to authorize any action whatsoever on behalf of Mallory Marine under the terms and conditions of this Limited Warranty. This Limited Warranty gives you specific legal rights, and you may also have other rights which may vary from state to state.

This Limited Warranty is in lieu of, and expressly excludes, any and all other warranties, express or implied, including any warranty of merchantability or of a fitness for a particular application or purpose.
